

**HOLD FOR RELEASE UNTIL MARCH 11, 2013:**

**The Société Internationale d'Urologie launches SIU Academy, a powerful new resource for urologists.**

*Montreal, Canada, March 11, 2013.*

The Société Internationale d'Urologie is pleased to announce the launch of [SIU Academy](#), a powerful new eLearning resource for urologists. Engineered for the cloud, [SIU Academy](#) can be accessed anywhere in the world. All users need is an Internet connection and a smartphone, tablet or computer to access a rich library of educational material specifically developed for urologists. The portal is a source of relevant and timely information on a variety of urological topics.

[SIU Academy](#) offers a wide range of searchable educational material, including: lectures, videos, case studies, webcasts, reviews, reports and more. The portal uses a powerful search algorithm that gives users the ability to filter, drill down and browse content quickly and easily. Content can be searched by topic, author, speaker, event, keywords, or a combination of any of these fields. For select content material, users can even directly contact leading urologists around the world to ask questions and post comments.

As the SIU's official eLearning portal, [SIU Academy](#) will help promote global education and cooperation in urology. It will be especially impactful in developing countries, where its easy Web-access means that any urologist will have the opportunity to expand their knowledge and improve their skill-set.

To celebrate the launch of the portal, SIU is offering urologists everywhere free access to [SIU Academy](#) until June 30, 2013. This free trial period includes access to premium content, such as material from experts like Fritz H. Schröder.

Urologists and health care professionals can create a profile online at [www.siu-academy.org](http://www.siu-academy.org).

**About SIU, the Société Internationale d'Urologie.**

SIU is the world's leading international urological association. Its mission is to enable urologists in all nations, through international cooperation in education and research, to apply the highest standards of urological care to their patients. SIU is a not-for-profit organization. It holds yearly congresses, accredits training centres around the world, awards scholarships to young urologists, collaborates with other not-for-profit groups, and engages in a variety of philanthropic activities. To find out more about SIU, visit [www.siu-urology.org](http://www.siu-urology.org).
